Message from the correspondent

Dear Parents,

Warm greetings from Athena Global School Chengalpattu!

I am thrilled to welcome you and your child to our school. Our team of experienced teachers will care for your child's learning needs, and we assure you that they will receive the best possible education. We conduct monthly Parent-Teacher Meetings (PTMs) where you can interact with our teachers, assess your ward's progress, and get updates on their academic and co-curricular activities.

We have a vast experience in providing an excellent and exceptional learning experience. All our teachers are well-trained and undergo professional development throughout the year. Our inclusive school offers a compassionate and responsible environment that develops self-regulated learners. Personal grooming and life skills are also a significant part of our curriculum.

We appreciate your decision to choose one of the best schools for your child's future. We look forward to working together and achieving great things.

Warm Regards

Mrs.C.Amutha. B.Sc., B.Ed.

About AGS

The Athena Global School Group began its journey in 2012 in Chidambaram, where a CBSE-affiliated school was founded. The school currently provides education to 1200 students from Kindergarten to Grade XII and offers unique learning opportunities to its students. It provides IIT-JEE/NEET Foundation and IIT-JEE/NEET regular courses to its senior secondary students, enabling them to secure admission to the best professional colleges. In 2018, the group established the Cambridge curriculum at Old Mahabalipuram Road (OMR) in Chennai, providing individualised Cambridge education in a supportive and encouraging environment.

Continuing its efforts to offer the best education, the group is establishing a new CBSE curriculum school in Chengalpattu suburb, starting from the 2024-25 academic year. The upcoming school aims to replicate the successful formula of its predecessors by offering inclusive education to its students, helping them face the real world with confidence. In addition to focusing on the regular academic curriculum, the school is experienced in offering life skills and work education. Ours teachers are well-trained to teach these out-of-book curricula to the students.

The schools operated by the Athena Global School Group follow strong inbuilt SOPs (Standard Operating Procedures), from teacher recruitment, training, and internal appraisals to students' continuous monitoring and evaluation to achieve milestones in students' progress.

CBSE Curriculum

Our school follows the CBSE curriculum, designed to be child-centric. We encourage children to be independent and develop critical thinking and problem-solving skills. We use activity-based methods to make learning enjoyable for children.

We conduct continuous and comprehensive yearly evaluations per the norms laid down by the Central Board of Secondary Education, New Delhi. We have a grading system to assess the overall performance of the child. The academic year is divided into two terms, and regular tests are conducted after the completion of each lesson. In addition, two-cycle tests are conducted for students in grade 3 and above for each term. We emphasise improving the child's listening, speaking, and reading skills, which in turn helps improve their writing skills.

We follow a 'no examination policy' for KG students and instead use an evaluation method.

The medium of instruction is English. The second and third languages offered by the school are Tamil and Hindi, respectively. At the secondary level, French is also taught as an optional language.

Athena Chengalpattu Highlights

Our school is situated in a serene environment, covering an area of 2 acres surrounded by lush greenery and beautiful lakes, providing a perfect ambience for peaceful learning. Our campus is connected by well-laid roads, and we are located just 1 KM away from the Chengalpattu-Thirukazhukundram main road.

Our school provides maximum security to all students and special care for girls. We ensure utmost discipline through passive methods like counselling, continuous monitoring via CCTV, and exceptional floor security.

- For KG classes, we follow fully activity-based hands-on learning, and the child is allowed to explore their environment for learning.
- At the primary classes level, we give 50% to 50% weight to learning academics and co-curricular activities.
